Trade Fair

2025

Liebe Leserinnen, liebe Leser,

wenn Sie unseren Newsletter regelmäßig verfolgen, dann wissen Sie, dass wir ein Faible für kuriose Gedenk- und Feiertage haben. So dürfen wir heute verkünden, dass der 29. Juli als „Bundesweiter Tag des Kaffeesatzes“ gilt. Was und wie da genau gefeiert wird, entfällt sich unserer Kontrolle. Aber eins steht fest: Unser wöchentlicher Nachrichtenüberblick aus dem HOME OF WELDING ist ganz sicher keine Kaffeesatzleserei.

In diesem Sinne präsentieren wir Ihnen unsere TOP-MELDUNGEN der Woche. Hierbei geht es um einen neuen Nassabscheider für Aluminiumstaub, um einen Schweißgrößhändler, der mit Innovationen auf dem Wachstumspfad ist, und um den neuen Geschäftsführer der KYOKUTOH Europe GmbH.

Schon etwas älter, aber noch längst kein kalter Kaffeesatz sind unsere SCHLAGZEILEN: Eine X08-Sonderlösung für Automobilelieferer im Bereich der Absaugtechnik, ein Update für die DIN EN ISO 9018 „Kerbschlagprobeversuch“, der Auftakt unserer Artikel-Serie über Kassenführung, in der es in Teil 1 um umfangreiche Kassenprüfungen geht, und die Vision vom Laserschweißwettbewerb im Videorum. Zudem haben SCHWEIßEN Service und HODIMAT ein gemeinsames Großprojekt zur Gesamtstellung gemeißelt, das Angebot „Sale & Leaseback 5+“ ist für Maschinen bestimmt, die in der Regel fünf Jahre und älter sind, drei neue Mitglieder verstärken den SCHWEIßEN & SCHNEIDEN-Messebeirat und die Wuppermann-Gruppe feiert ihr 150-jähriges Jubiläum.

Zu guter Letzt finden Sie wieder viele interessante Termine in unserem VERANSTALTUNGSKALENDER.

Wir wünschen Ihnen viel Spaß beim Lesen (ob bzw. in welcher Form Sie Ihrem heutigen Kaffeesatz huldigen, können Sie ja spontan entscheiden).

DIE TOP-MELDUNGEN DER WOCHE:

Neuer Nassabscheider für Aluminiumstaub

Mit dem DUSTOMAT HYDRO bringt Esca eine leistungsstarke Nassabscheider-Generation auf den Markt, die speziell für Aluminiumstaub und Arbeitsprozesse mit Punktschmelz konzipiert ist.

1. Investigation method:

Recipient structure analysis through written survey - sample survey

2 Description of the recipients at the time of data collection:

2.1. Condition of the file:

In the recipient file, the addresses of all recipients are recorded on EDP. Based on the existing postal information, the file can be sorted by postcode or domestic and foreign recipients.

2.2. Total number of recipients in the file:

4,821

2.3. Total number of changing recipients:

–

2.4. Structure of recipients at the start of the survey:

Recipients in the file, copies sold	4,483
Recipients in the file permanent free copies	338
	4,821
Promotional copies	300
actual circulation	4,525
of which domestic	4,299
of which abroad	226

3. Description of the investigation:

3.1. Population (proportion examined):

Population	5,121	=	100%
not included:			
Promotional copies	300		
Recipients abroad	296	596	= 11.6%
The investigation represents recipients	4,525	=	88.3%

3.2. Day of the sample drawing:

May 13, 2009

3.3. Description of the sample survey:

Simple random selection, starting with the random number 4 every 13th address

Initial samples (questionnaire sent)	325 cases	= 100%
Questionnaire cannot be delivered by post	0 cases	= 0.0%
Bookstores / libraries	3 cases	= 0.8%
Gross sample	322 cases	= 100%
Failures		
Questionnaire not returned	91 cases	= 28,3 %
Questionnaire returned empty	0 cases	= 0,0 %
Net sample (exhaustion)	231 cases	= 71.7 %
	(evaluable cases)	

3.4 Target person of the investigation:

First recipient

3.5. Definition of the reader:

not applicable

3.6. Period of investigation:

Sending out the questionnaire to the total sample: June 22, 2009. Reminder letter (in some cases with the questionnaire attached again): June 29, 2009 and July 13, 2009. The cut-off date for the acceptance deadline for returns that were included in the evaluation was August 20, 2009.

3.7. Implementation of the investigation:

publishing company

This study corresponds to the current version of the ZAW framework for advertising media analyzes in terms of its design, implementation and reporting.

Sectors/branches of the economy/specialist fields/occupational groups

SCHWEISSEN und SCHNEIDEN reports on the results of development and research papers from all fields of industry as well as from industry-free institutes. Furthermore, the journal provides information about experience with regard to the application of welding technology in practice - in structural steel engineering, building and bridge construction, mechanical engineering, electrotechnology, vehicle manufacture, aircraft manufacture, reactor construction as well as the chemical industry. This information is supplemented by topical reports on new developments as well as on economic questions.

Department/ group/ class	Recipient groups (according to the classification of the branches of the economy)	Proportion of the actually circulated print run

Advertorial:

The ideal addition to your classic advertising with an editorial-like background. You provide text/image material, we adapt the layout to the magazine design:

2/1 pages, 4c (10,000 Characters incl. spaces)	7,430 €
1/1 page, 4c (5,000 Characters incl. spaces)	5,075 €
1/2 page horizontal, 4c (2,000 Characters incl. spaces)	3,110 €

Technical information on ad formats, printing material and data transfer can be found on the pages 38 – 39.

1. Investigation method:

Recipient structure analysis through written survey - sample survey

2 Description of the recipients at the time of data collection:

2.1. Condition of the file:

In the recipient file, the addresses of all recipients are recorded on EDP. Based on the existing postal information, the file can be sorted by postcode or domestic and foreign recipients

2.2. Total number of recipients in the file

8,905

2.3. Total number of changing recipients

–

2.4. Structure of recipients at the start of the survey:

Recipients in the file, copies sold	8,610	
Recipients in the file permanent free copies	295	
	8,905	
Promotional copies	300	
actual circulation	9,205	
of which domestic	8,883	
of which abroad	322	

3. Description of the investigation:

3.1. Population (proportion examined):

Population	9,205	=	100 %
not included:			
Promotional copies	300		
Recipients abroad	322	=	6.8 %
The investigation represents recipients	8,583	=	93.2%

3.2. Day of the sample drawing:

May 13, 2009

3.3. Description of the sample survey:

Simple random selection, starting with the random number 4 every 13th address

Initial samples (questionnaire sent)	343 cases	= 100 %
Questionnaire cannot be delivered by post	0 cases	= 0 %
Bookstores / libraries	3 cases	= 0.8 %
Gross sample	343 cases	= 100 %
Failures		
Questionnaire not returned	99 cases	= 28.9 %
Questionnaire returned empty	0 cases	= 0 %
Net sample (exhaustion)	244 cases	= 71.7 % (evaluable cases)

3.4 Target person of the investigation:

First recipient

3.5. Definition of the reader:

not applicable

3.6. Period of investigation:

Period of investigation:

Sending out the questionnaire to the total sample: June 22, 2009. Reminder letter (in some cases with the questionnaire attached again): June 29, 2009 and July 13, 2009. The cut-off date for the acceptance deadline for returns that were included in the evaluation was August 20, 2009.

3.7. Implementation of the investigation:

publishing company

This study corresponds to the current version of the ZAW framework for advertising media analyzes in terms of its design, implementation and reporting.

Sectors/branches of the economy/specialist fields/occupational groups

DER PRAKTIKER is distributed in all sectors of the economy where welding technology is used in manufacturing and repair work.

Department/ group/ class	Recipient groups (according to the classification of the branches of the economy)	Proportion of the actually circulated print run	
		%	Copies
36, 35, 5–7	Energy industry, water supply and mining	7.1	511
20, 19.2	Chemical industry and mineral oil processing	4.8	346
22	Plastics processing	0.6	43

Content:

Editorial profile	32
Circulation and distribution analysis	33
Scope and content analysis	34
Topics and dates	35
Advertising rates	36-37

Editorial Profile: Technical magazine covering welding, cutting and brazing/soldering technology and related fields.

Target Group: Internationally operating industry experts and decision-makers about investment projects.

Publisher: DVS – German Welding Society, D-Düsseldorf
Institut de Soudure, F-Roissy

Editorial Staff Sarah Gottschalk (management/responsible)
Anja Labussek M.A.
Dipl.-Ing. Viktor Travkin

Year: Volume 24, 2025

Publication frequency: 2 x times a year as an issue in the issue in SCHWEISSEN und SCHNEIDEN 4/2025 + 9/2025.

Print run: 3,600 copies

Publication/subject plan: see page 35

Editorial features

- Research, development and application
 - Training
 - Continuing education
 - Exchange of experiences
 - Welding, cutting, brazing/soldering, adhesive bonding and allied processes
 - Material issues (ferrous and non-ferrous metals, plastics, basic and additional materials)
 - Calculation, construction and production in steel, container, apparatus, vehicle and mechanical engineering
 - Welding machines including robots and controls
 - Material testing (destructive and non-destructive)
 - Occupational health and safety
-

In cooperation with

Verbreitung:

- As EXTRA SERVICE for subscribers as a magazine-within-a-magazine in SCHWEISSEN UND SCHNEIDEN 4/2025 + 9/2025
- As an electronic issue to over 2,000 internationally active professionals

Distribution worldwide:

Distribution in Europe:

Please ensure that all fonts, logos and graphics (300 dpi) used are supplied as files, provided they are not embedded in the document.

Preferred data formats:

We recommend the delivery of PDF data (standard: PDF/X-4:2008). Open data (e.g. InDesign etc.) should be avoided. The file must be printable, i.e. all fonts used must be embedded, halftone images require a resolution of 300 dpi, line images at least 600 dpi.

Colours:

PSO Coated v3 (ECI)

Colour profiles and more information about ICC profiles at eci.org.

When delivering print files that are sent to us in RGB colour mode, we automatically convert them to CMYK. Please note that the conversion may result in colour changes. The publisher is not liable for colour deviations in print. Special colours are possible on request.

Processing of image data

TIFF-, EPS- und JPEG-files

- The file names should not contain any spaces or special characters
- Please ensure sufficient bleed allowance (at least 3 mm)
- Other programs and data carriers on request

Notes for a smooth transaction:

- Create black and white advertisements only in black and white or grayscale
- Mix colours only in cyan, magenta, yellow and black (process colours)
- The file names should not contain any spaces or special characters
- In parallel with the delivery of the data, please provide a printout of the advertisements so that the digital data can be checked
- For 4c ads, please send a proof
- When submitting data, quote the magazine and issue

The ABC of Joining - International Industry Guide

The advantages at a glance:

- ✔ **Something for everyone:** Organised topically into 13 main groups with more than 500 relevant keywords
- ✔ **Everything a glance:** Each entry encompasses the firm's complete postal address including its email and Internet addresses.
- ✔ **Save costs:** We offer you attractive graduated prices according to the number of keywords
- ✔ **One price - two trade journals:** In our readers' focus every month.
- ✔ **Cross-border contacts:** The publication in our journals in German makes it possible for you to establish contacts beyond Germany's borders too.
- ✔ **In addition and free of charge:** The entry at www.abc-der-fuegetechnik.de/en/ with a link to your homepage.
- ✔ Publication of your **companies logo** on our Internet site **free of charge**. Please send the logo (jpg-file) to: britta.wingartz@dvs-media.info.
- ✔ **Possibility of beginning the entries every month** (deadline: 15th of the previous month).

JOINING PLASTICS

FÜGEN VON KUNSTSTOFFEN

Editorial profile

Editorial Profile: JOINING PLASTICS – FÜGEN VON KUNSTSTOFFEN as a bilingual magazine (German/English), deals exclusively with the title subject.

Application-oriented specialist articles reflect new developments and the state of the art for series welding and the joining of plastics in pipeline, container and apparatus construction. The reader also learns everything important from the areas of company, quality management and standardization, research and development as well as occupational safety and environmental protection. Furthermore, all scientific articles are characterized by independent assessment, so-called "peer-reviewed papers".

Publisher: DVS – German Welding Society, D-Düsseldorf

Editorial staff: Sarah Gottschalk (management)
Nicole Stramka M.A. (responsible)

Year: Volume 19, 2025

Publication frequency: 3 times per year

Language: German/English

Print run: 4,000 copies

Publication/subject plan: see page 47

Subscription charges: Annual subscription 80 €
(Print + Digital)
plus postage costs

Target group: JOINING PLASTICS – FÜGEN VON KUNSTSTOFFEN is aimed to fitters, masters, technicians, engineers and scientists from the medical technology, clean room, white equipment industry, automobile construction, pipeline construction, gas and water supply, disposal, raw material and machine manufacturers, design / engineering offices and companies that deal with mechanical joining processes, adhesive bonding and lamination.

Editorial features:

- News
- From companies
- Products
- Specialist Articles
- Events

Special formats / special forms of advertising:

Let us know your requests for special formats and special forms of advertising.

We would be happy to make you an offer.

Preferred data carrier / data transfer:

E-Mail: anzeigen@dvs-media.info
We-Transfer: www.wetransfer.com

Please ensure that all fonts, logos and graphics (300 dpi) used are supplied as files, provided they are not embedded in the document.

Preferred data formats:

We recommend the delivery of PDF data (standard: PDF/X-4:2008). Open data (e.g. InDesign etc.) should be avoided. The file must be printable, i.e. all fonts used must be embedded, halftone images require a resolution of 300 dpi, line images at least 600 dpi.

Colours:

PSO Coated v3 (ECI)
Colour profiles and more information about ICC profiles at eci.org.

When delivering print files that are sent to us in RGB colour mode, we automatically convert them to CMYK. Please note that the conversion may result in colour changes. The publisher is not liable for colour deviations in print. Special colours are possible on request.

Processing of image data

TIFF-, EPS- und JPEG-Daten

- The file names should not contain any spaces or special characters
- Please ensure sufficient bleed allowance (at least 3 mm)
- Other programs and data carriers on request

Notes for a smooth transaction:

- Create black and white advertisements only in black and white or grayscale
- Mix colours only in cyan, magenta, yellow and black (process colours)
- The file names should not contain any spaces or special characters
- In parallel with the delivery of the data, please provide a printout of the advertisements so that the digital data can be checked
- For 4c ads, please send a proof
- When submitting data, quote the magazine and issue

WELCOME TO THE HOME OF WELDING

The **HOME OF WELDING** has been the Internet platform for everyone involved in welding technology since April 1st, 2019 - in industry and handicrafts!

What counts in HOME OF WELDING is content. Versatile, wide-ranging topics that are interesting for the entire welding industry

The content-based B2B platform therefore includes:

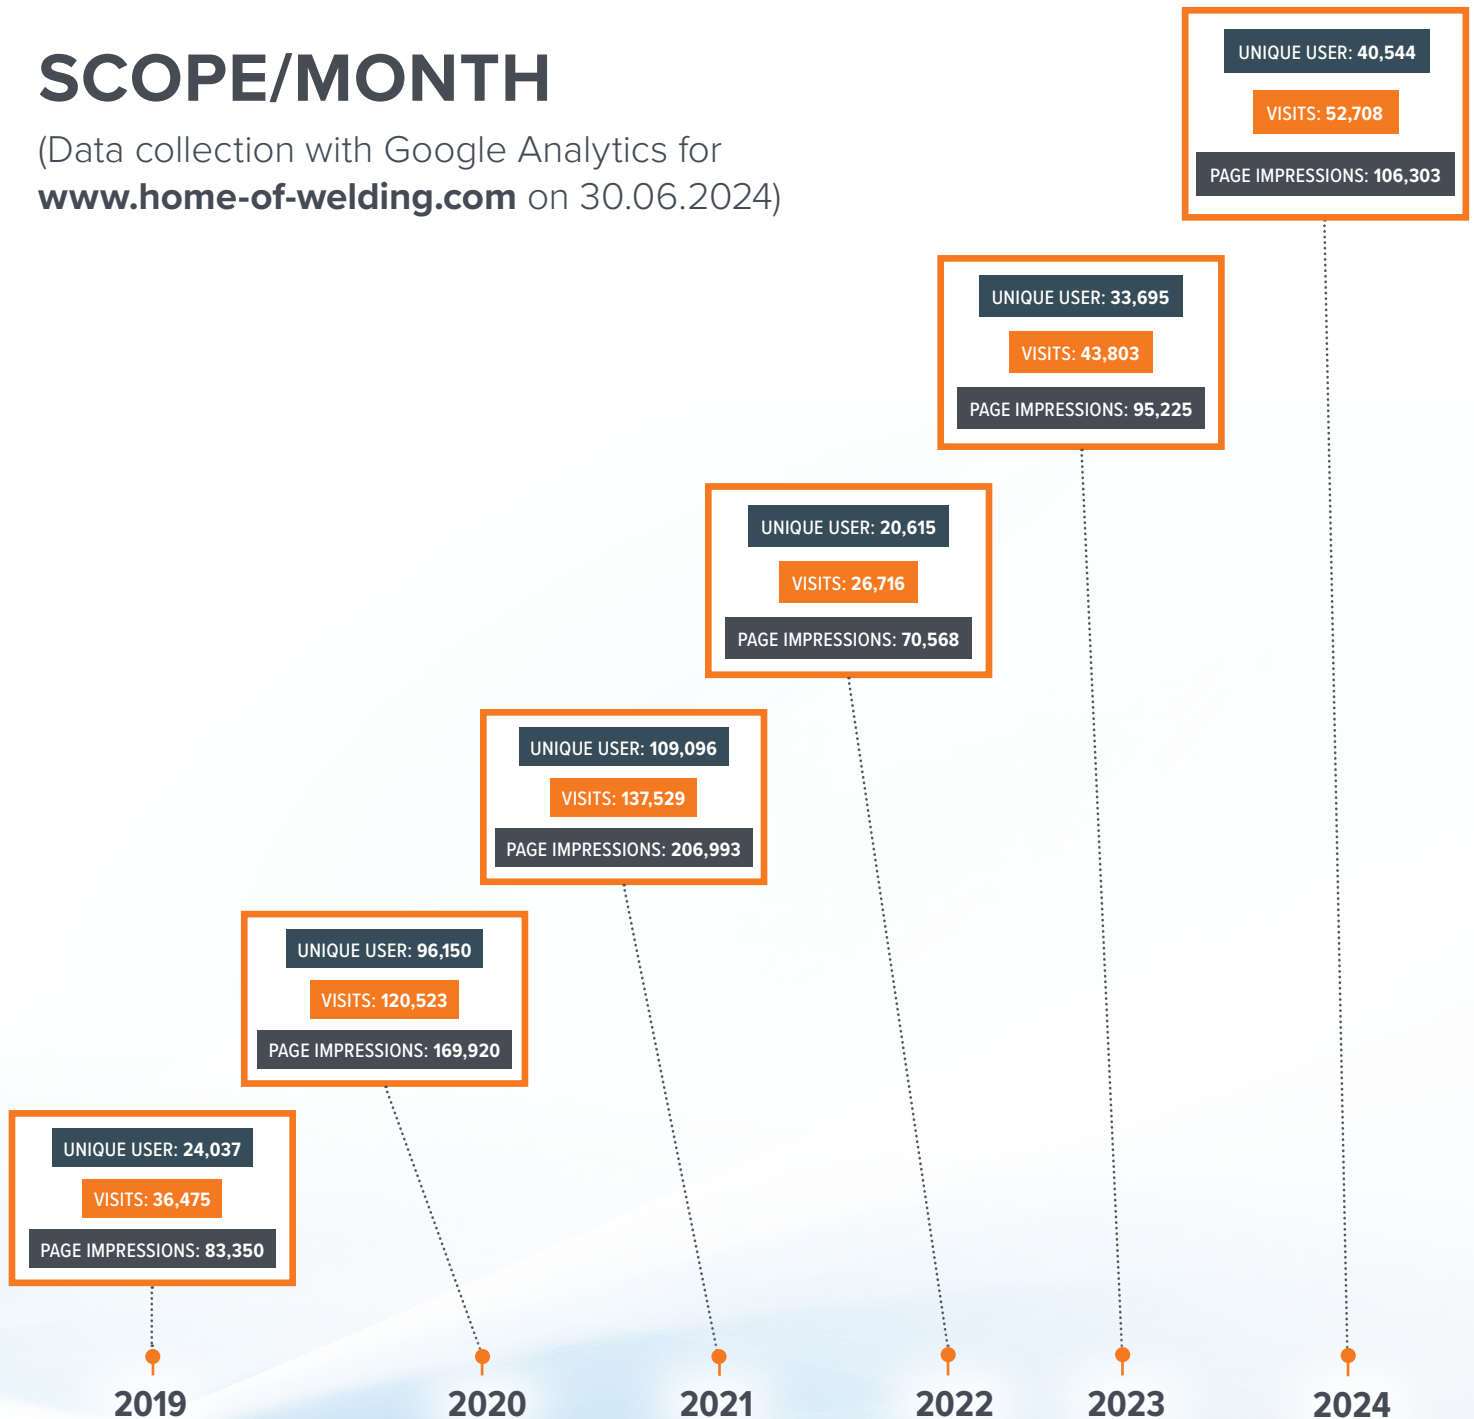

- › breaking news
- › an industry-specific product and company directory
- › an industry-specific jobportal
- › access to the welding standards portal
- › practical tips
- › expert opinions
- › references to specialist media
- › event information

Discover now:
www.home-of-welding.com

SCOPE/MONTH

(Data collection with Google Analytics for www.home-of-welding.com on 30.06.2024)

Note: From 01.12.2021 a cookie consent banner became active, therefore the following values are lower and not directly comparable with previous years.

ADVERTISE TO THE POINT.

YOUR POSSIBILITIES IN THE UNIVERSE

Banner Advertising

Banner advertising is one of the most popular advertising options on the Internet because good banner advertising is perceived and clicked. In the HOME OF WELDING you can use various standard formats for your advertising goals.

Advertorials

Advertisements in editorial guise are becoming increasingly popular. With this advertising opportunity you benefit from our high quality editorial content in the HOME OF WELDING.

Product- and company directory

An industry leader through joining technology with all well-known manufacturers and the associated products completes the usefulness of the industry portal.

Broken down by products, it allows the quick and easy contact with new suppliers.

Newsletter advertising

In our weekly newsletter you can choose between three banner placements. All advertising formats guarantee maximum attention, as they are placed between single editorial articles.

JobPortal

Are you looking for specialists and managers who are familiar with joining technology? We reach your target group precisely with our crossmedia JobPortal.

We have put together four attractive packages for your optimal presence in the **HOME OF WELDING**. The heart of these service packages is the company and product database.

Make yourself smart on the following pages and choose between: **Basic Plus, Bronze, Silber or Gold.**

BASIC PLUS

- > Listing of max. 5 product categories in the directory, further listings on request
- + Full address
- + Specification of the website

80 € monthly/Duration: 12 month*

PRESENTATION OF YOUR COMPANY

The screenshot displays the 'HOME OF WELDING' website interface. The top navigation bar includes links for HOME, ARTIKEL, MEINUNG, PRAXISTIPPS, PRODUKTE & FIRMEN, FACHMEDIEN, JOBPORTAL, and TERMINE. The main content area features a large image of several white booklets or brochures on a table. Below the image, the company name 'DVS Media GmbH' is displayed, along with the tagline 'Fachmedien für die Schweißtechnik'. A brief description follows: 'DVS Media GmbH – Der Fachverlag für fügetechnische Publikationen'. To the right, a sidebar contains a 'Jetzt bestellen' button and a 'Kundenmagazin für DVS-Mitglieder' section. The footer of the page provides the company's address: 'DVS Media GmbH, Aschener Straße 172, 40223 Düsseldorf'.

*The services in the HOME OF WELDING industry portal take 12 months. We calculate our services as part of an annual invoice plus VAT.

OUR NEWSLETTER

YOUR ADVERTISING POSSIBILITIES

In our newsletter we summarize the most important articles, headlines and dates from the reporting in the HOME OF WELDING every week.

Our newsletter is usually published once a week, usually on Thursdays. You are also welcome to use this weekly, editorial notice to our newsletter subscribers for your advertising message. Give your advertising message the right framework.

Banner-Prices:

> Fullbanner	620 x 60 px	325 €
> Text Ad	400 characters max.	340 €
> Text/Image Ad	300 characters max.	
+ 1 Image		350 €
> Special Banner	620 x 75 px	460 €

FOR EVERYONE WHO HAS MORE TO SAY IN THE INDUSTRY:

OUR STAND-ALONE-NEWSLETTER

Your messages to the welding industry need more space than an advertising banner can provide? Then use our circle of subscribers for a **stand-alone newsletter**.

The design of the stand-alone newsletter corresponds to the weekly HOME OF WELDING summary. The decisive difference, however, lies in the content, which is made up exclusively of your reports. The stand-alone newsletter can be sent at any time, with the exception of Thursday. If you have any special design requests, the HOME OF WELDING editorial team will be happy to help you.

- › Introtext (max. 1,500 characters including spaces)
- › Three teaser articles
- › Headline: max. 75 characters
- › Teasertext: max. 540 characters
- › Image size: 271 x 181 px.
- › Three to four headlines: max. 70 characters each
- › Three to four dates for your events
- › **Stand-alone-Newsletter: 2,050 €**

ADVERTORIAL: YOUR ADVERTISEMENT IN EDITORIAL PACKAGING

Advertorials are a popular means of presenting advertising in editorial packaging.

HOME OF WELDING also offers you this opportunity.

We publish your advertorial directly on the homepage on the day of publication, just like the other editorial content.

Later, your article is, for a specific period of time, listed in our chronological article overview „Advertorials“.

Advertorial:

- > 3 months period: 1,025 €
- > 6 months period: 1,750 €
- > 12 months period: 2,770 €

DVS Media GmbH has greatly expanded its website and online offering and completely revised its design

Why advertise online?

Banner advertisements increase awareness and promote image building. Use inexpensive online advertising where your target group is looking! The Internet has now become the leading medium for obtaining business information. According to the latest studies, more than 70% of decision-makers first get information online. (Online media disseminate information faster than traditional advertising media and usually reach a significantly larger readership.)

Your advantage!

Via the various websites you can reach specialists and executives from welding, cutting and soldering technology, steel construction, structural engineering and bridge construction, mechanical engineering, in electrical engineering, in vehicle construction, aircraft construction and in the chemical industry.

The Banners

Our offer includes 5 different banner formats (static / animated). With multiple occupancy of the banner spaces, the banners appear in rotation. We also offer you interesting placement options, perfectly tailored to your needs

DER SCHWEISSER

Advertise where practitioners get information

The information service for the practitioner and more

Editorial Profile

With short and precise information, tips and hints for daily work, "DER SCHWEISSER" addresses the "welder on site" as well as the training and further education participants of the DVS educational institutions.

Our specialist editorial team puts its special focus on

- Presentation of the joining, cutting and coating processes
- Preparation and explanation of easily understandable technical terms
- Providing instructions on occupational safety
- Materials science
- Areas of application for certain welding processes
- Notes on working techniques

In addition, the readers can use quiz questions on the various subjects to check whether they are up to date with their knowledge.

Wasserlösliche Formiergassperren aus Maisstärke – in der Praxis bewährt

Wasserlösliche Formierbällchen aus Maisstärke bieten eine neue Möglichkeit einer Formiergasperre in Rohrleitungen mit Durchmessern bis zu ungefähr 50 mm (Bild 1). Diese Formierbällchen sind sicher in der Anwendung, kostenoptimiert sowie umweltfreundlich und grundwasserneutral. Die Idee dazu entstand bei Mitsubishi Hitachi Power Systems (MHPS) Europe, Duisburg, durch die hohen Qualitätsansprüche, die bei der Einstellung von Schweißverbindungen in Druckleitungen von superkritischen Dampferzeugern bestehen. Diese Ansprüche lassen sich nur erfüllen, wenn die technischen Hilfsmittel kontinuierlich überdacht und angepasst werden.

Während der Bauarbeiten des Unternehmens an einem Großkraftwerkprojekt hatten einige der eingesetzten Schweißer Formiergasperren aus wasserlöslichem Formierpapier zum sicheren Wurzelschutz für ein gutes Schweiß-

Aus dem Inhalt:

- Vorteile verspannter Kehlnähte
- Haben Sie's gewusst?
- Unregelmäßigkeiten geschweißter Beschichtungen
- Schweizerische Umgangssprache „Lagenscher Schweißen“
- Was ist das denn? (53)
- Schweißnähte in Zeichnungen – Teil 2/2 Kennzeichnung des Stegabstands
- Hammölen
- Humor in der Schweißtechnik

gebnis in Rohrleitungen eingebracht. An so komplexen Schweißverbindungen besteht aber auch immer die Gefahr, dass in einer Rohrleitung zu viel Formierpapier in Summe zusammenkommt und während des Spülens verbleibt. Diese „Klumpen“ sind durch einfaches Spülen nicht wasserlöslich und nur durch kostenintensivere Maßnahmen wie Aufschneiden der betroffenen Rohre und Hochdruckspülen zu beseitigen. „Auf der Suche nach Alternativen, die wasserlöslich und chemisch verträglich für den Kessel sind, begannen wir eine Kooperation mit der Lacke Biowertstoff GmbH, Dorsten“, erinnert sich Michael Buschmann von MHPS, der bei dem Kraftwerkprojekt als Fachbauleiter Schweißtechnik verantwortlich war. Lack-

Unregelmäßigkeiten geschweißter Beschichtungen – Teil 3

Das Fertigungsergebnis Schweißen wird nicht nur vom Verschleiß der Werkzeuge sondern auch von Beschichtungen beeinflusst. Von Beschichtungen gibt es viele verschiedene. Man ist auch geübt, dass man sie auch als Beschichtungen bezeichnet. In der Schweißtechnik können sie in zwei Kategorien unterteilt werden: Beschichtungen, die auf dem Werkstoff aufgetragen werden und Beschichtungen, die auf dem Schweißdraht aufgetragen werden. In der Schweißtechnik sind die Beschichtungen von großer Bedeutung. Sie sind für die Schweißqualität und die Lebensdauer der Schweißnaht von großer Bedeutung. In der Schweißtechnik sind die Beschichtungen von großer Bedeutung. Sie sind für die Schweißqualität und die Lebensdauer der Schweißnaht von großer Bedeutung.

Schweißtechnische Umgangssprache „Lagenscher Schweißen“

Ein Schweißbrenner hat ein Brennerrohr, das aus einem Brennerkopf und einem Brennerkörper besteht. Das Brennerrohr ist mit einem Brennerdraht gefüllt, der durch den Brennerkopf in die Schweißnaht geleitet wird. Das Brennerrohr ist mit einem Brennerdraht gefüllt, der durch den Brennerkopf in die Schweißnaht geleitet wird.

For more than 50 years

Editorial profile

For more than 50 years, the aluminum delivery directory, which is published once a year, has been the leading international reference work for the aluminum industry among buyers in the core and key industries, in the subcontracting segment, among experts and auditors, and at association and chamber level. Thanks to its contemporary format, it meets the legitimate expectations of users, who quickly and purposefully get an up-to-date overview of suppliers of raw materials, metallurgical products, semi-finished and semi-finished products, light metal trade, finished products, plant and mechanical engineering, aluminum processing and the wide range of services such as Need to provide advice and expert opinions.

Print run	10,000 (print and digital)
Publication frequency:	annually
Printing process:	Offset
Data formats	File as EPS, TIF or PDF
Book format	148 mm wide × 210 mm high
Type area:	117 mm wide × 172 mm high
Ad closing date:	October 24, 2025
Publication date:	November 2025

The Aluminium Suppliers Guide, divided into almost 20 categories, is used in 3 versions:

- Print, more than 300 pages
- USB stick, can be used individually for digital use
- Online, www.alu-lieferverzeichnis.de/en/

The Aluminium Suppliers Guide: The decisive link for qualified contacts between purchasing and sales.

Offprints

This is how you ignite the advertising turbo with your specialist articles ...

With your published article in one of our specialist magazines, you have given a visible sign of your professional competence. Use this effect to really accelerate your marketing - with a special print in print or digital!

With printed special editions of your technical article, you are literally giving your expertise to customers or partners. And the printed offprints successfully complement your marketing measures at events. You can integrate the offprints in digital form into your website or conveniently send them by email. Whether print or digital: special prints protect you against copyright infringement. All publications and representations in our media are protected. With our offprint variants you can publish your contribution in a legally unobjectionable way.

We would be happy to make you an individual offer.

1

The classic – as a print product

In printed form

Print run already from 100 copies

Including the permission to distribute your prints

Saddle binding

On request, practical eyelet binding for filing (surcharge: EUR 20)

2

As a Print-PDF – digital

high-resolution print file in the PDF format

For transmission to your own printing facility

Unlimited print run

Unrestricted reprinting right

Including the permission to distribute your prints

3

As an Internet PDF – digital

File format appropriate for the Web

For incorporation into your website or for dispatch by e-mail

Including permission to publish for the web and for distribution

Ideal in combination with print or print PDF

Offprints

Original title page

Pure competence

You start with the original title page. A separate field draws attention to your article. Alternatively, you can insert your own title picture or an advertisement.

Head title pagee

Concise entry

our article begins directly underneath the head title line of the trade journal

Corporate-title page

Individual designing

The title page corresponds to the corporate design of your company.

Basic title page

Gets directly to the point

The special print is indicated as such merely in the top margin

We offer these services in addition:

Page numbers as well as third-party advertisements and articles are removed.
Use the space which becomes free in order to place your own advertisement or contact data.
